HORSES AND HORSEMEN

SOME OF THE TROTTERS IN WINTER QUARTERS AT ACCA FARM.

Notes From Petersburg and Other Places. The Oceancechee Farm Stable-Prince Belmont Bought by Mr. Blake.

So long I did not expect ever to be well ge, by proper selection as to size pe, are by far the best horses for se and are much more ready sale hely can possibly breed. We have a more standard-bred trotting stalthis county than any other countries. One breeding establishas some five or six. "Kelkey." t full brother to the great Ex. 2:12 1-2, is owned in this county. Primeer, aslob, by a son of Election of a Princeps mare, and finely-bred Wilkes stallions, all ing speed equal to their fine breed-

For several hours a rencounter was momentarily expected by the citizens: finally a friend of both parties (Dr. Hobson), acting as peacemaker, succeeded in andicably settling the matter, as all thought at the time. Later in the day, however, the Carrington brothers, walking down the street met Hobson, who as

On loosing his clothing, I found the shot had taken effect in his bowels and groin. The gun was churged (euch barred) with fifteen large buckshot, and its failing to fire a second time only saved the life of

carried into a drug store, where in two or three hours he recovered sufficiently to be removed to the hotel.

Next morning (Sunday), accompanied by a few friends, the surviving brother with the dead were driven to their home. ELLIOTT ACQUITTED.

Elliott surrendered immediately to the officers of the law, and on Monday morning (Sunday intervening) was tried before a court of justices. I was summoned to

UNIVERSITY OF FIRGINIA.

Captain Camm Patteson Makes an Earnest

four hundred persons incarcerated for crime, only seventy-one were well-educated men, and the vast majority were people of practically no education. This teaches a great and salutary lesson and justifies taxation for the promotion of education. The University of Virginia is an educational institution has, perhaps, in many respects, been the greatest success on the American continent. As far as the State of Virginia is concerned, it has repaid more than one hundred-fold every dollar which has been spent upon it. For many years, it has given in its academic departments tuition absolutely free to all Virgina students, the value of which is far in excess of the annual appropriation. I can point to numbers of instances where the free tuition has made enthent scholars in both classical Highester and science. The success has become so signal that the principle has been adopted by many other States of this Union. Four years ago the University of Wisconsin voted \$85,000 a year to the support of that institution, with only one dissenting vote, and the present year it voted an additional sum of \$120,000 a year, again with only one dissenting vote. This is an example which the Legislature of Virginia well may emulate, for the University of Virginia is not only a State but a national institution. It is a fact that all of the great universities of Europe sity of Virginia is not only a State but a national institution. It is a fact that all of the great universities of Europe are under State control, and those on the continent of Europe are supported by public taxation. The University of Virginia embodies the great principle of an union of the Church and State. It is not a school for Methodists, for Episcopalians, for Baptists, or Presbyterians, or Roman Catholies; it is the institution for all; for here all can meet upon an equal fobting. This was a sublime conception of the immortal Jefferson, whose name will forever tive in the "pantheon of history." It cut at one fell swoop the Gordian knot, which had hitherto baffled the world. It is emphatically not a political institution, No professor is ever asked his political opinions, either before or after his election. It is condicted on a plane high above the political arena.

It almost always has a number of stu-

SAFETY.

"Safety" the watchword of the hour; in bicycles the low wheel with pneumatio tire and search light; in railroading the

tire and search light; in railroading the block-signal and vestibule.

Why not "safety" in medicine? The old-fashioned cough and cold cures are poisonous, laden with lpecae to nauseate, and Opium to deaden the senses.

Not so with "?? "for Colds and Grip—Dr. Humphreys' latest and greatest discovery. It is entirely harmless, yet acts with such promptness that the cure begins before the pellets are entirely dissolved on the tongue—the cold is cured—the spirits revive, and life resumes a golden hue.

"77" FOR CRIP

Colds, Influenza, Catarrh, Pains in the Head and Chest, Cough. Sore Throat, General Prostration and Fever. "7?" will "break up" a stubborn cold that "hangs on."

Dr. Humphreys puts up a Specific for every disease. They are described in his Manual, which is sont free.

Small bottles of plessant pellets—fits your vest pocket: sold by druggists, or sent on receipt of price. Ed. or five for \$1.50. Humphreys Medicine Co., 111 and 113 William St., New York. He sure to get
